

Services for People with Disabilities

We promote opportunities and provide support for persons with disabilities to lead self-determined lives. Support includes community living, day services, supported employment services and support for their families.

SOME OF OUR SERVICES

- Severity of need assessments and screenings are provided to those who apply for services
- Services are provided to individuals with an intellectual disability, cerebral palsy, autism, severe epilepsy, brain injury and physical disabilities
- Service recipients receive job training, job coaching and life skills training
- Private companies contract with us to provide supported employment, group homes and home placement for children with special needs
- Utah State Developmental Center is a 24-hour residential and treatment environment for people with developmental disabilities
